PASSENGER CRAFT/ FERRIES

Ferry 3508 Electric

Ferry 3508 Electric

The Galatamarin Ferry 3508 Electric is a versatile platform customizable to the local passenger needs, with a passenger accommodation either fully- or partly covered and with bow or side boarding. The design accommodates a maximum of 250 passengers and space for (motor) bikes. Efficient in operation with excellent manoeuvrability and large electrically operated boarding ramps to support quick boarding. Available with different battery capacities and charging solutions.
