Waterbus 2907 Hybrid

Waterbus 2907 Hybrid

The composite Waterbus 2907 E3 Hybrid is extremely efficient in terms of weight, hull design and systems, featuring a hybrid-electric arrangement for peak shaving. It is highly manoeuvrable and provides efficient boarding and disembarking. Sustainability is considered throughout. The interiors are completely circular, using natural materials such as wool and wood, as well as recycled materials.

TECHNICAL DETAILS	
Length	28.6 m
Beam	7.5 m
Draught (m)	1.5 m
Passengers	75
Speed max (kn)	21
Main engines	2x E-motors
Total power	2x 375 kW
Propulsion	2x Fixed pitch propellers
Battery system	2x 84 kWh
